

MEASUREMENT GUIDE

Here at Alton Lane, our method of measuring is quite unique to our process, so please be sure to follow this Measurement Guide as closely as possible. Our level of accuracy is directly related to the information you provide and the measurements you submit. Please understand that while we cannot be held liable for personal measurement errors, we remain committed to all of our customers and will always offer to share in the cost of a remake, if one is requested.

If you have 20 minutes and a tape measure, you can take your measurements with the help of a friend. Simply follow the instructions for each measurement.
